How to Draw: A Sand Crab

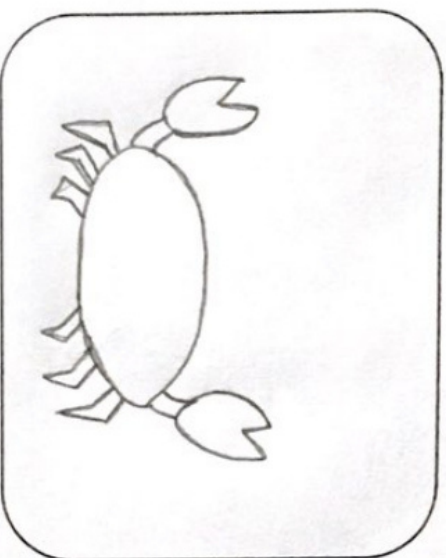

1. First, start by drawing an oval in the middle of the page.

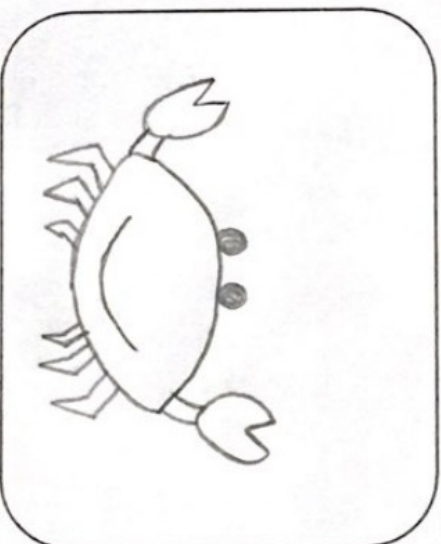

2. Then, draw 2 small lines on the left and right side of the oval. This will be the beginning of the pinchers.

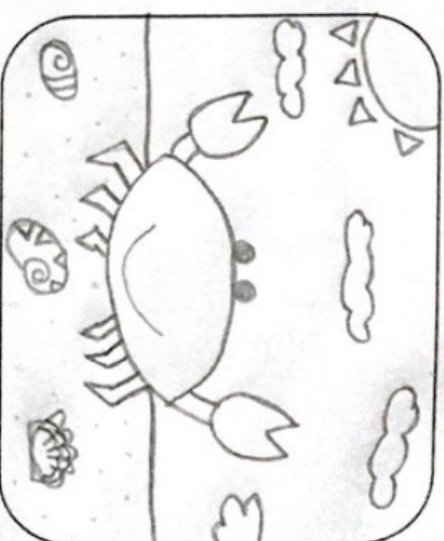

3. Next, draw two ovals, one on each side that connects to the lines. Erase the top end and draw a V to make the pinchers open.

4. Then, we're going to draw the legs. This crab has 3 pointed legs on the left side and the right.

5. Next, add a face! Draw a U shape on the center oval for a smile. Draw two small circles at the top of the oval for eyes.

6. Finally, add some detail. Draw a horizontal line behind the crab for sand, add shells, or color it red! You decide!

Just for Laughs!

What did the reporter
say to the ice cream?

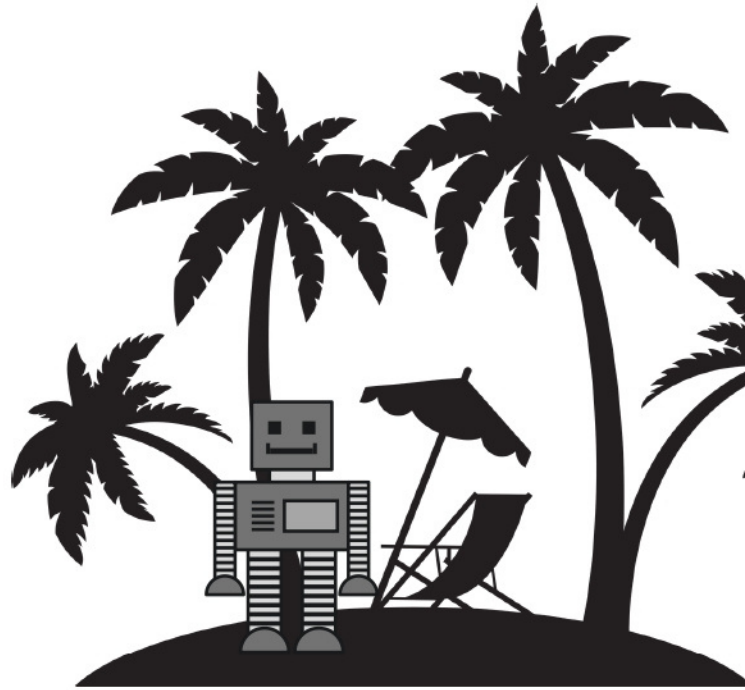

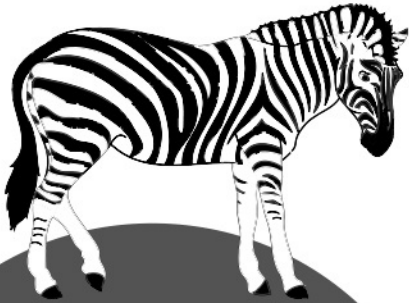

What's the scoop?

What's black and white
and red all over?

**A zebra with a
sunburn!**

Why did the robot go on vacation?

He needed to recharge his batteries

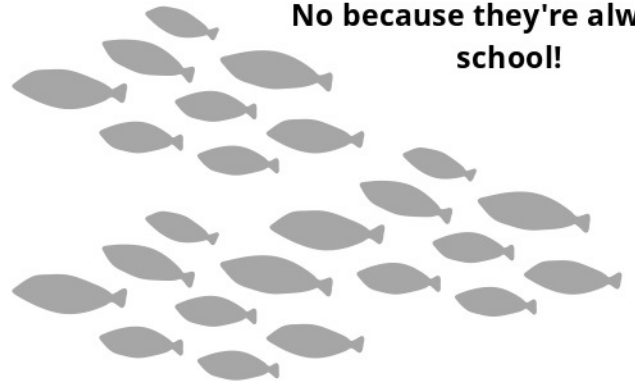

How do we know the ocean is
friendly?
It waves!

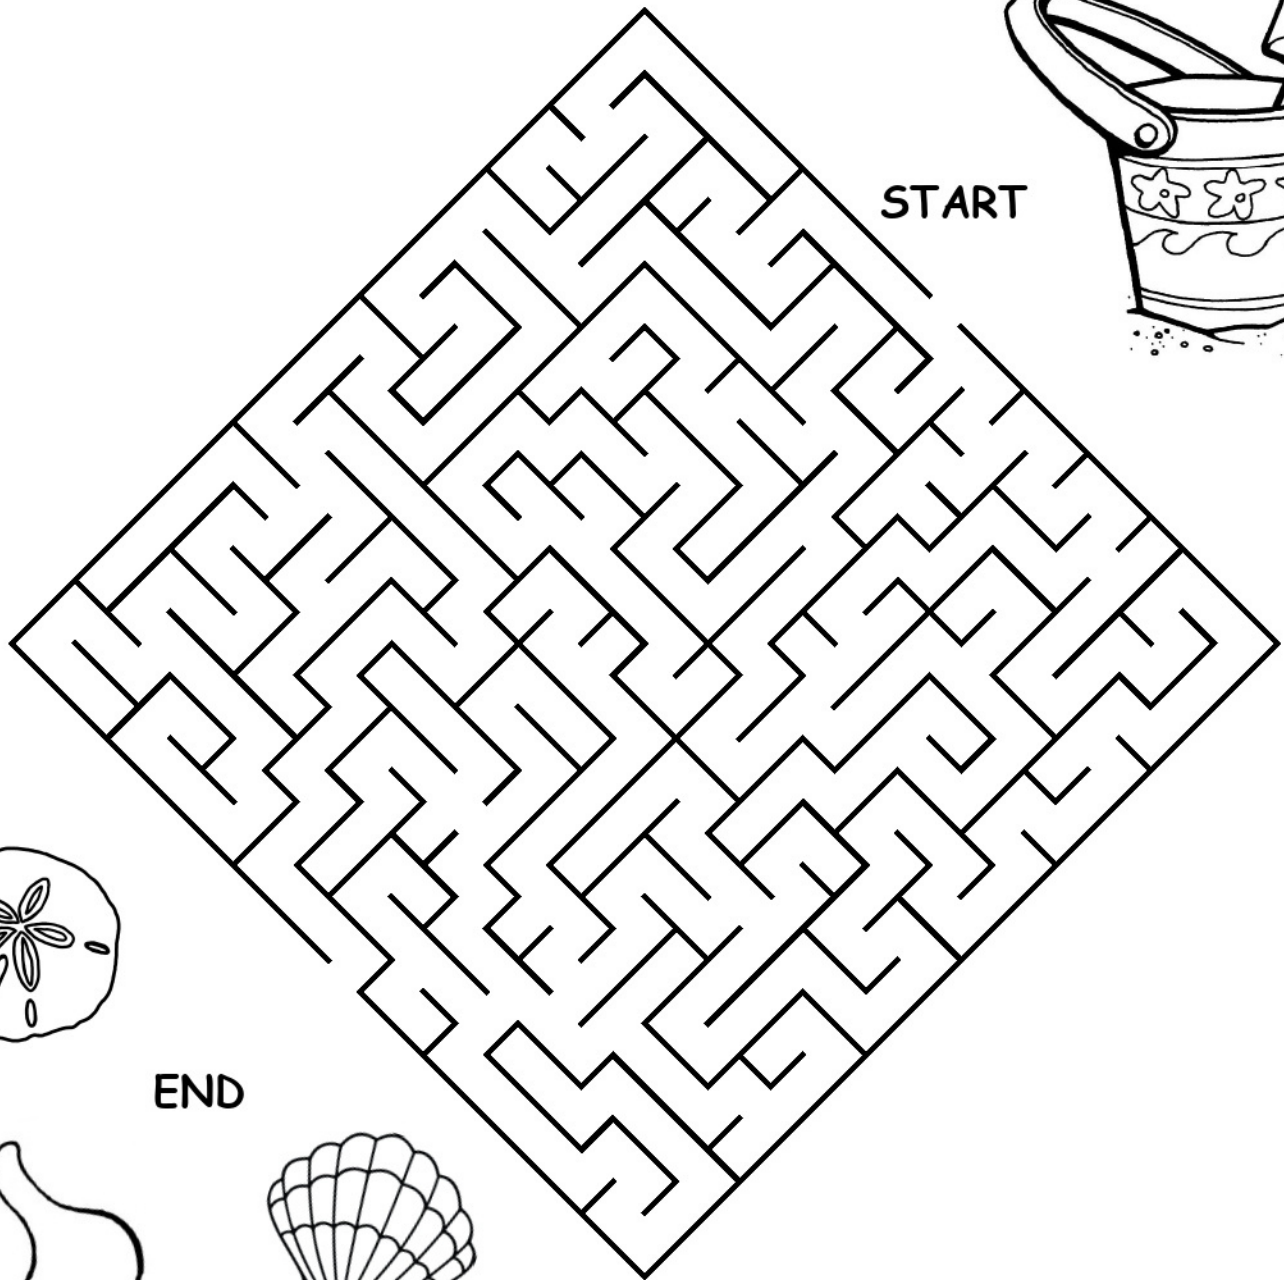

Do fish go on vacation?
**No because they're always in
school!**

What music do whales
like to listen to?
**They listen to the
orca-stra!**

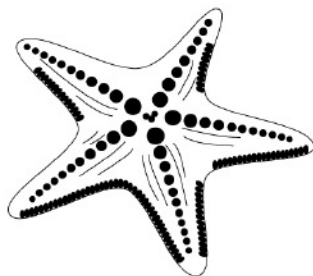

Go through the beach maze to find the seashells!

SUMMER TRIVIA

What is summer?

Summer is the warmest season of the year and it happens between spring and fall.

When is summer?

In the northern hemisphere, summer is from June to August. In the southern hemisphere, summer is from December to February.

Why does it get hot in the summer?

During the summer, the Earth's axis tilts which causes the earth to be closer to the sun's rays.

Why do we sweat when it is hot outside?

We sweat because it's your body's way of keeping you cool. When the sweat evaporates off your skin, it brings down your body temperature.

What fruit is the freshest in summer?

Watermelons! The top watermelon growing states are Florida, Texas, and California.

How big is the largest watermelon grown?

The Guinness Book of World Records reports that the largest watermelon weighed 262 pounds!

What is the hottest place on Earth?

Death Valley, California. Temperatures can reach up to 130 degrees fahrenheit!

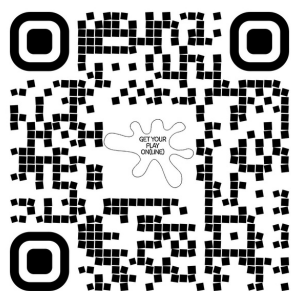

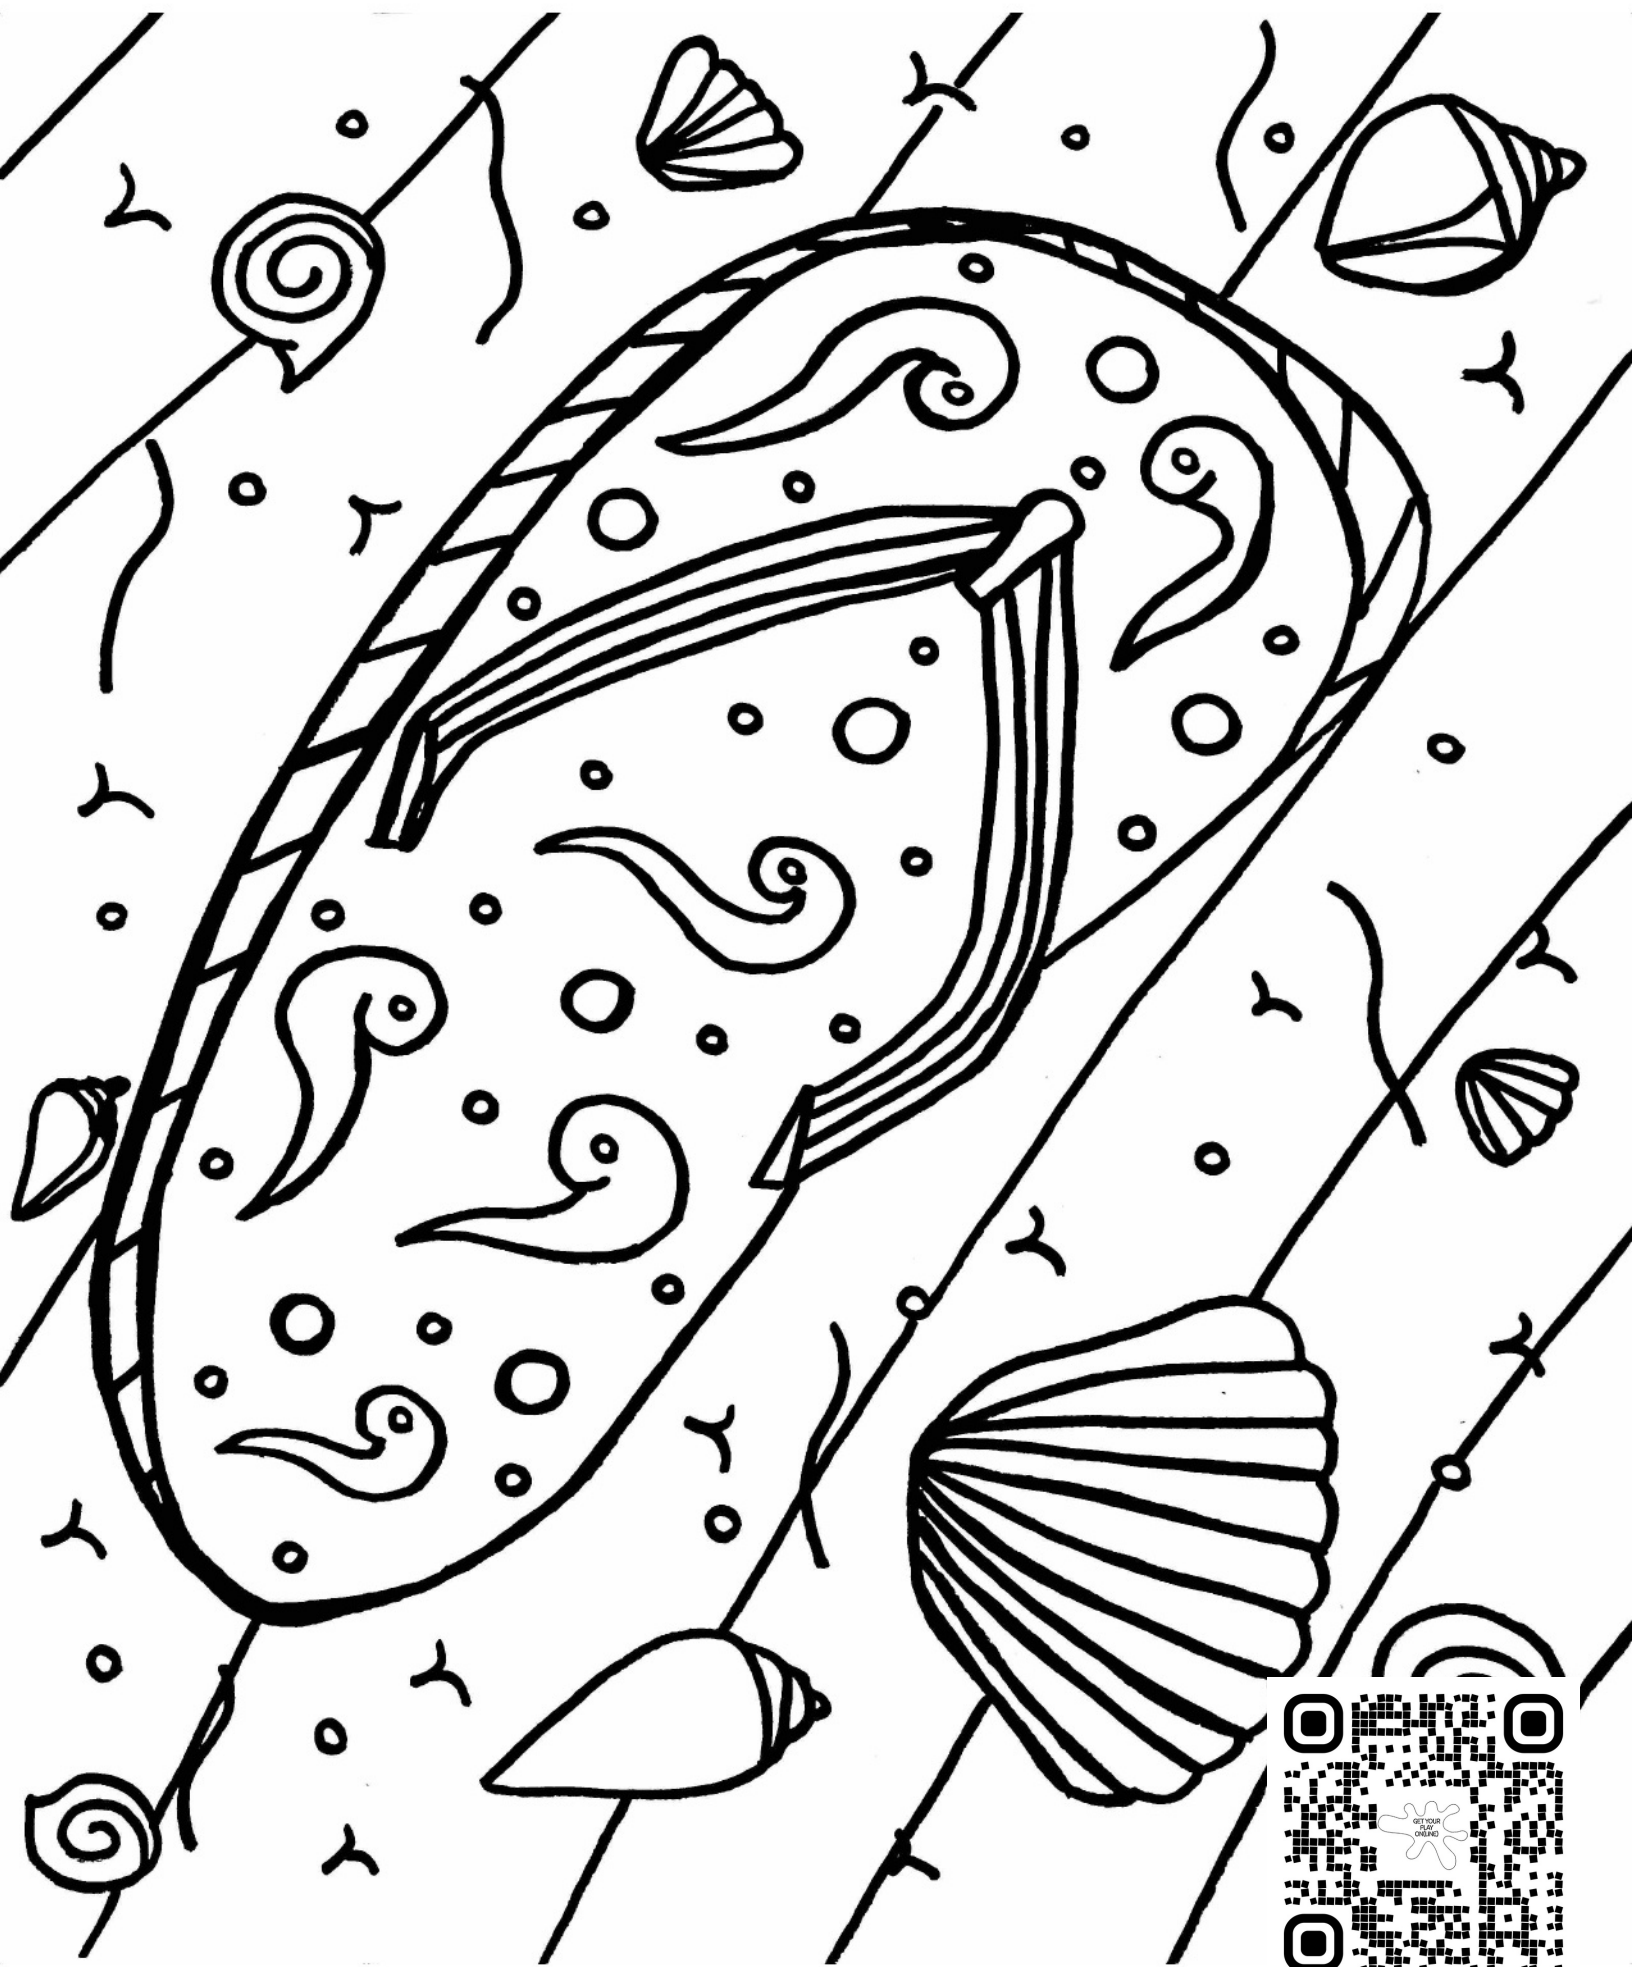

What month is National Ice Cream Month?

July!

How tall is the largest sand castle?

The largest sand castle is approximately 58 feet in height!
